We Dedicate . . .

IN DEDICATING the fifty-first volume of the "TERRA MARIAE", we pay tribute to the students, both past and present, who served so nobly and ably in the Armed Forces in World War II to perpetuate the ideals which all of us cherish dearly.

To these men we owe a debt of thanks and their names will forever be inscribed on the HONOR ROLL of the School of Pharmacy.

The Honor Roll

WILLIAM PRESTON LANE, JR., LL.D.

Governor of the State of Maryland

MESSAGE FROM THE PRESIDENT OF THE UNIVERSITY

Classes graduating this year from the University of Maryland will go out into a world which offers opportunities for achievement greater than mankind ever has known. In no field are the opportunities greater than in the preparation and uses of therapeutical agents. It is in this field that graduates of the School of Pharmacy of the University have long distinguished themselves, and I am confident that the Class of 1947 has among its members those who also will become bright stars in the firmament of pharmaceutical accomplishment.

The best wishes of the University, of the Board of Regents, of the Faculty and of the President go with you. In my humble opinion, you will reflect credit and glory upon your Alma Mater.

H. C. Byrd,
President.

HARRY CLIFTON BYRD, LL.D.

President of the University

ANDREW GROVER DuMEZ, PH.G., B.S., M.S., PH.D.
Dean of the School of Pharmacy

The Dean's Message To The Graduates

It is now more than a year since World War II was ended, and victory for the allied cause was due in no small measure to the excellent health conditions maintained in the respective allied countries and their military forces. Pharmacists in this country can be proud of the fact that adequate pharmaceutical service was maintained for both, our civilian population and our military forces, even though approximately 10,000 pharmacists were taken from civilian life to serve in our armed forces. Not only were our civilian population and military forces supplied with the usual drugs and medicines of long established therapeutic value, but a number of valuable new drugs were discovered and production on a commercial scale inaugurated.

In a few more months, you will have completed your professional education. I congratulate you upon having reached this objective at a time when many important new discoveries in the field of drug therapy are pending and when you will have a greater opportunity than ever before to make use of your professional education. I feel that you can be depended upon to take full advantage of these opportunities to the end that pharmaceutical service in the State may be maintained on the present high level of efficiency.

A. G. DuMEZ,
Dean.

THE SCHOOL

History of the School of Pharmacy

The need of an institution where apprentices in pharmacy could be given systematic instruction in the sciences underlying their profession had long been felt by leading pharmacists and physicians, when in 1841 a charter was obtained from the General Assembly for the Maryland College of Pharmacy. The incorporators, seventeen in number, and among whom were Messrs. George M. Andrews, Thomas G. Mckenzie, R. Rush Roberts, Robert Coleman and Dr. David Stewart, immediately organized and established courses of instruction in chemistry, pharmacy and materia medica. These men carried on the work of the college until 1847, when, owing to the death of some members and change of business of others, they were compelled to suspend all lectures. During the period of operation, however, they graduated a number of eminent pharmacists, to whose efforts in resuscitating and reorganizing the college in 1856 much is due. Among the older graduates appear the names of Messrs. Frederick A. Cochrane, Alpheus P. Sharp, William Thompson, Samuel Rodgers, J. Faris Moore, John W. Read and Christian Steinhofer. Of these, Messrs. Alpheus P. Sharp and William S. Thompson were not only earnest and active supporters of the College, but were adornments to the profession they represented, as well as graduates of whom their Alma Mater might well be proud.

In 1856 at the request of the graduates and a number of Baltimore pharmacists, the president, Mr. George W. Andrews, called a meeting which resulted in the election of thirty-one new members, and a thorough reorganization of the College. The new Board of Trustees established three professorships: Dr. Lewis Steiner was elected Professor of Chemistry; Dr. Charles P. Frick, Professor of Materia Medica; and Israel Grahame, Professor of Pharmacy. A course of lectures was given during the season 1857-1858 to a class of intelligent and appreciative students, and the College took a new lease on life, which has since been maintained.

Dr. David Stewart gave the lectures in pharmacy during the period 1841-1846. Following the reorganization, the chair of Pharmacy was filled by Professor Israel J. Grahame, who was succeeded by Mr. P. Phillips, an earnest and interesting instructor. The sudden death of Professor Phillips caused the election of J. Faris Moore to the vacancy. Professor Moore was one of the older graduates of the College, and was a consistent and zealous worker in behalf of his Alma Mater and in the interest of pharmacy, until his death. He continued in the chair of pharmacy for nineteen years, when, on resignation of the chair of Materia Medica by Professor Baxley, he was chosen Professor of Materia Medica. Then on March 8, 1879, Dr. Charles C. Caspari, Jr. who was later to play such an important part in the history of the Maryland College of Pharmacy was elected Professor of Pharmacy, which chair he continued to fill until his death on October 13, 1917. He was succeeded by Dr. Evander F. Kelly, class of 1902, who held the professorship until January, 1926, when it was taken over by Dr. John C. Krantz, Jr., class of 1919, who held it for one year. Andrew G. DuMez, Ph.G., B.S., M.S., Ph.D., the present Dean, now holds the professorship.

Mr. William E. A. Aiken was lecturer in chemistry from 1841-1846. From 1856 the professorship of chemistry was filled for a number of years by Dr. Louis Steiner. On his departure from the city he was succeeded by Professor Alfred Mayer, who afterwards moved to New York, and he was in turn succeeded by a graduate of the College, Dr. Helsby, who remained a few years and then entered upon the practice of medicine. The chair was then occupied by Dr. De-Rosset, a man of great ability and a popular lecturer. Upon his resignation in 1873, the Board of Trustees elected the able and energetic Professor William Simon, Ph.D., M.D., to fill the vacancy. Daniel Base, Ph.D., became associated with Dr. Simon in 1895, and was elected Professor of Chemistry in 1902, which position he held until his resignation in 1920 to become associated with Hynson, Wescott and Dunning. The teaching of the basic courses in chemistry has been

under the direction of the Department of Chemistry of the University of Maryland. In 1936 Glenn L. Jenkins, Ph.D., Professor of Pharmaceutical Chemistry since 1927, resigned to accept a similar position in the School of Pharmacy of the University of Minnesota. Walter H. Hartung, A.B., Ph.D., who had been research chemist for Sharp and Dohme for a decade, is the present head of the department.

Messrs. David Stewart and William S. Reese were the lecturers in Materia Medica 1844-1846. Dr. Charles P. Frick was elected Professor of Materia Medica June 5, 1856, and on April 17, 1858, Professor Frick, having been called to the chair of Materia Medica in the old University of Maryland School of Medicine, was succeeded by Professor Frank Donaldson, M.D. Like his predecessor, he was called to a professorship in the University of Maryland. He was succeeded by Professor J. R. Winslow, in 1863, and the latter, on June 1, 1866, by Claude Baxley, M.D., who ably filled the position until 1879, when declining health caused him to sever his connection with the College. He, in turn, was followed by J. Faris Moore, M.D., who continued in this chair until his sudden death on February 3, 1888, when Dr. David M. R. Culbreth was elected to succeed him. Dr. Culbreth, who had always been an ardent worker for his Alma Mater, ably and efficiently filled the professorship until June 10, 1920, when he resigned from active duty and became Professor Emeritus. Dr. Charles C. Plitt of the class of 1891 served as Professor of Botany and Pharmacognosy until his death in 1933. Associate Professor Frank J. Slama, who is an alumnus of the school and who received the Degree of Doctor of Philosophy from the University of Maryland was appointed to head the department in 1938.

Great advances have been made in the profession of pharmacy since 1856, and it has been found necessary to enlarge the curriculum from time to time to keep abreast of this progress. In the broadening of its curriculum, the school has been guided largely by the standards set by the American Association of Colleges of Pharmacy. In 1913, courses in pharmaceutical arithmetic, pharmaceutical Latin, and pharmaceutical law were added. Recently the course in commercial pharmacy has been expanded, and in the future all work of this nature will be given by the department of economics. This department is presided over by Miss B. Olive Cole, Phar.D., LL.B., who is also Professor of Pharmaceutical Law.

In 1921, the curriculum was further broadened to include the general education subjects, English, romance languages, algebra, trigonometry, zoology, and physics. In the same year provisions were made for teaching bacteriology. Since then a separate department was in charge of Assistant Professor H. Bryan, V.M.D., B.S., M.A. In 1937 Associate Professor Thomas C. Grubb, A.B., Ph.D., was appointed to head the department, resigning in 1945. Associate Professor Donald E. Shay, B.S., M.S., Ph.D., is the present head of the department.

In 1930, a department of pharmacology was organized in the school to give instructions in bio-assaying. The equipment of this department and its maintenance were made possible through the generosity of the late Captain Isaac E. Emerson, who endowed it liberally. In 1938 Marvin R. Thompson, Ph.D., Emerson Professor of Pharmacology since 1930, resigned to accept the Directorship of the Warner Institute for Therapeutic Research. Clifford W. Chapman, Ph.D., who had been with the Laboratory of Hygiene, Department of Pensions and National Health in Canada, which department is in charge of drug control work in the Dominion, and in which he held the position of pharmacologist, is now the present head of the department.

Following the reorganization of the Maryland College of Pharmacy in 1856, control was vested in the offices of the College President, first and second Vice-Presidents, Treasurer, and Secretary, who, together with the Board of Examiners (three members), constituted the Board of Trustees. The first president was Mr. Thomas G. Mackenzie, 1840-1842, followed by Mr. Benjamin Rush Roberts from 1844 to 1871, and was followed in succession by such illustrious pharmacists as Dr. J. Brown Baxley, Dr. J. Faris Moore, Dr. John F. Hancock, Dr. Joseph Roberts, Dr. Edwin Eareckson, Mr. William S.

Thompson, Mr. Louis Dohme, and Mr. Charles Dohme (1894-1904). In 1904, it became a department of the State University, when the old University of Maryland was merged with the Maryland State College. With this last merger, control was transferred to the officers of the University. The control of the University of Maryland is now vested in the Board of Regents, of which Dr. W. W. Skinner is chairman. A Faculty Council, composed of the Dean and certain members of the Faculty, control the internal affairs of each separate school comprising the University.

Dr. Charles C. Caspari, Jr., became Dean of the Maryland College of Pharmacy in 1896, and continued as Dean after the merger of the College with the old University of Maryland, until his death on October 13, 1917. Dr. Daniel Base succeeded him, but because of conditions incident to the World War, Dr. Base obtained leave of absence to teach in another department, and Dr. Evander Kelly was elected Dean on September 30, 1918. This office was held by Dr. Kelly until December 31, 1925, when he became Secretary of the American Pharmaceutical Association. Dr. Andrew G. DuMez, formerly Associate Pharmacologist, Hygienic Laboratory, U. S. Public Health Service, is the present Dean.

When the institution was first chartered in 1841, the lectures were given in the amphitheater of the University of Maryland. Following the reorganization in 1856, and until 1876, the College occupied halls rented for the purpose. In the early part of the latter year, the city grammar school located on Aisquith Street near Fayette Street was purchased and after radical, but needed changes, the College occupied what was then considered a very commodious home. However, as classes began to increase, the need was felt for more and better facilities, and in 1886, a new building was erected on the old site. This building was fitted with the then-most-modern in scientific appliances, and was well stocked with the necessary apparatus, materials and specimens. The College continued to occupy these quarters until it became the Department of Pharmacy of the University of Maryland, in 1904. At the present time the School of Pharmacy is located in the new Pharmacy and Dental Building at Lombard and Greene Streets, which building was made possible by an appropriation from the State of Maryland during the legislative session of 1929.

The new building is a realization of a great need for adequate quarters in which to teach the honored profession of Pharmacy in Maryland. Everyone interested in Pharmacy may well be proud of this splendid building, as well as of the modern equipment and apparatus which has been provided for demonstration and teaching purposes.

From the foregoing it will be seen that the School of Pharmacy of the University of Maryland, which began its existence as the Maryland College of Pharmacy, has exercised its functions as a teaching institution since 1841 except for the ten-year period 1846 to 1856. In spite of its vicissitudes it has steadily borne itself onward and upward. It has steadily increased and improved its facilities to enable it to impart instruction in keeping with the pharmaceutical knowledge of the times. It was the first institution of its kind to establish a professorship of Pharmacy, and hereby allocate to that branch of learning an individuality of its own. It was also one of the first schools to make analytical chemistry obligatory for graduation. In still other lines its leadership has been manifest, particularly in the textbooks published by members of its teaching staff. The result has been a steady growth in size and influence so that the school now holds a position in the front ranks of the teaching institutions of its kind in this country.

Class President's Message

FELLOW-GRADUATES,

We have studied zealously and we have been well trained by our instructors. The small size of our class has been a great factor in bringing about such splendid training as we have received. We knew the professors and they knew us. Now we go forward prepared to assume responsible positions in the pharmaceutical world. May each one of us perform his duty well, and may each passing year bring a good measure of success to all.

Sincerely yours,

Howard S. Sirulnik.

MR. JOHN C. KRANTZ, SR.
Honorary President of the Alumni Association

Mr. John C. Krantz, Sr. was born in Baltimore eighty years ago. At the age of twenty he graduated from the Maryland College of Pharmacy (now the School of Pharmacy of the University of Maryland). He was a student of that famous triumvirate Charles Caspari, Jr., J. Faris Moore and William Simon.

In 1886 Mr. Krantz purchased the pharmacy at Broadway and Chase Street from John W. Keefer under whom he had served his apprenticeship. This pharmacy has been operated without interruption under the ownership of Mr. Krantz for sixty years. Shortly after the turn of the century Mr. Krantz organized the Clifton Savings Bank and served as its first president for many years. During his career in Pharmacy, Mr. Krantz also operated at one time, a pharmacy at Bond and Towasend Streets along with his brother George H. Krantz; also for sometime he operated the pharmacy at Bond and Oliver Streets with his cousin, the late Albert H. Parlett. From 1916 to 1926 he operated the pharmacy at Gay and Preston Streets under the able management of Albert E. Hammel.

John Christian Krantz, Sr. is a pharmacist of the old school, an old fashioned store-keeper, the type who does not let anything interfere with the opening of the store. His hobby is his drugstore. His recreation is his drugstore. Amazingly enough he has never grown stale in mind or body after sixty years. Today in the twilight of life you can see him operating daily from morning to near midnight with the zeal and enthusiasm of life's high noon. "What will you have please, you're next."

"The Society of the Maryland College of Pharmacy" was organized on May 15, 1871, and continued its separate existence as such or as the "Alumni Association of the Maryland College of Pharmacy" until 1907, when the General Association of the University of Maryland was formed. Following the organization of the General Alumni Association, the Society remained dormant until June 4, 1926, when it was re-established as "The Alumni Association of the School of Pharmacy of the University of Maryland." Each year it is more evident that interest in the Alumni Association is not only maintained, but is growing.

MESSAGE FROM THE PRESIDENT

As President of the Alumni Association, I congratulate the members of the graduating class and extend to each of you a cordial invitation to become an active member in the Alumni Association.

You have sacrificed a great deal in the past few years to obtain your B.S. in Pharmacy. Likewise, in years to come you will look back and realize the efforts put forth by your teachers to give you your formal education.

During your formal education you have noted many advancements in the field of Pharmacy, with this in mind you can readily understand how necessary it is to continue to study in order to keep abreast with the times.

The Rho Chi Society evolved from a local pharmaceutical organization which was established at the University of Michigan, College of Pharmacy, on May 4, 1908. The local group chose the name of the "Aristolchite Society."

It was founded as the Rho Chi Society at the University of Michigan, in the City of Ann Arbor, in the year Nineteen Hundred and Twenty-Two, and incorporated in that year.

Chapters of Rho Chi may be established only at recognized colleges of pharmacy. Eligibility for membership is based on the completion of 75 credit hours of college work and the attainment of certain prescribed standards for scholarship, character, personality, and leadership.

The object of Rho Chi has always been twofold, namely, to promote the advancement of pharmaceutical sciences and to promote good fellowship. The Society has, therefore, done much good in the schools where chapters have been established, since the reward of election to membership supplies a scholarship incentive unequalled by any of the other rewards. A third objective has developed in recent years, that of stimulating research in the pharmaceutical sciences.

The Student Council of the School of Pharmacy was organized on April 7, 1926. The Council is a representative group composed of twelve members, three elected from each class. It supervises in a general way the social and athletic activities of the school, and seeks to encourage and foster in the student body a friendly and wholesome spirit which will reflect honor on the splendid traditions of the University.

The Student Council has been a means of instilling a feeling of fellowship among the students, and has continually worked for the development of harmony and cooperation between the student body and the faculty. The Council has sought to instill in each student the desire to conduct himself honestly, fairly, and courteously in all his activities, both within and without the University. The liberal policy which has characterized its supervision of the extra-curricular activities has met with general approval and cooperation of the student body.

The Students' Auxiliary of the Maryland Pharmaceutical Association exists in order to promote a closer relationship between pharmacists and students of pharmacy. It also hopes to promote progress, guard the welfare of the profession and familiarize the students with the conditions confronting their profession.

During the first semester, a film on Vitamins was shown to the student body by the E. R. Squibb and Sons. Several other films on medicinals and guest speakers have been scheduled to appear before the student body during the second semester.

EDITOR'S MESSAGE

This year the editors of the *Terra Mariae* set for themselves the task of producing a yearbook to be a worthy beginning of the post-war era. Although we were hampered from the outset by the increased cost of materials, never for a moment were we discouraged and we feel that the best possible *Terra Mariae* was published under present circumstances.

We feel that each class received its just share in the book. We sincerely hope, through this medium, that the memories of your college days will remain forever fresh.

For their cooperation and assistance, we wish to express our appreciation to the following: Dean A. G. DuMez, Miss B. Olive Cole, Dr. Frank J. Slama, Dr. Adele Ballman, and Mr. Sidney Schultz, Printer's representative.

Chapter Activities

Kappa Chapter under the leadership of Sam Block, Directorum, undertook the task of rebuilding and furthering the purposes of the fraternity at the very start of the school year.

At the Annual Smoker held at Hendler's Hall, several new men were accepted for pledgeship and initiated on February 16, 1947.

On January 2, the chapter actively participated in sponsoring the Tri Fraternity Dance, held through the coordinated efforts of the three fraternities of the School of Pharmacy.

Undoubtedly, the highlight of the entire year was on October 16, 1946 when a gala Banquet and Dance was staged in the main ballroom of the Lord Baltimore Hotel. This affair marked the climax of Kappa's efforts to raise funds as their part of the National Body's pledge to finance the construction, equipping and maintenance of the Pharmaceutical Laboratory of the Hadassah Tuberculosis Hospital then under construction in Palestine .

Chapter Activities

With a nucleus of eight men returning to school in September, Beta Chapter set upon the task of regaining its position of pre-war years. The first social function of the year was a smoker held on September 24 at which time an unusually large group of fine young men were pledged.

The next social affair was an informal dance held on October 13 at the Lord Baltimore Hotel commemorating the 32nd anniversary of the founding of Phi Alpha. Earlier that evening five pledgees were initiated as full fledged members.

Another initiation took place November 9 with the induction of ten new members which was followed by a stag party. The final social function for 1946 was a sport dance held in the club room at Iceland.

In conjunction with Alpha Zeta Omega and Phi Delta Chi, a Tri-Fraternity Dance was held on January 2 at The Cadoa. The dance was a great success and we are looking forward to making it an annual affair.

The Chapter celebrated its 31st anniversary on February 22 highlighted by a semi-formal dinner dance at the Park Plaza Hotel. Several affairs were held during the spring bringing to a close a most successful social season.

Chapter Activities

After having suffered severely during the war years, Iota Chapter started this school year with a depleted membership under the leadership of Howard A. Pippig, W.C.C.

The social season got under way with a well attended Smoker at the Southern Hotel. This was followed several weeks later by an Informal Pledge Dance at Levering Hall.

Probably the highlight of the early winter season was our participation in a Tri Fraternity dance with Phi Alpha and Alpha Zeta Omega. This was, without a doubt, one of the finest informal dances ever held by the fraternities of the School of Pharmacy. We hope to be able to cooperate annually in this affair.

An initiation took place in January in the hills of Howard County with the induction of 24 new members.

With this greatly increased membership, Phi Delta Chi held a semi-formal dance in March, a Formal Banquet in April and the Annual Spring Formal in May.

Phi Delta Chi was a rejuvenated organization this year and hopes to go on to better times and more social events in the years to come.

The Mixer

The annual School of Pharmacy Mixer was held on Thursday, January 16th, at The Cadoa. The music was furnished by Carl Hamilton and his troubadors. As usual the students and their ladies passed through a reception line composed of the faculty and their wives. A number of Alumni were noticed throughout the crowd, all having an enjoyable evening. The highlight of the evening was a specialty performed by the vocalist and the orchestra to the delight of those present.

Tasty refreshments were served throughout the evening. The Senior class helped to serve the faculty and their wives.

The committee was composed of Howard Pippig, Chairman; Morton Kahn, Louis Bickel, Marvin Abrams, Irvin Friedman, Barbara Marshall and Gene Geist.

The Tri-Fraternity Dance

What undoubtedly was unprecedented in the annals of the social calendar of the School of Pharmacy, was the Tri Fraternity Dance held at The Cadoa on January 2nd. The music was furnished by Carl Hamilton and his troubadors. The cabaret style added to the informal and friendly atmosphere.

From where your correspondent sat, everyone seemed to have a wonderful time. The music was good, the people friendly and the arrangements well made. The hall was full of pharmacists past, present and future; all dancing with lovely women and gently tapering off from what apparently had been a terrific holiday. Much favorable comment has been heard about the dance and it is hoped by all this will become an annual affair.

The committee responsible for this fine dance are as follows:
Howard Pippig, Chairman; Louis Bickel—Phi Delta Chi.
Marvin Abrams, Sidney Pats—Phi Alpha.
Irvin Friedman, Seymour London—Alpha Zeta Omega.

The Spring Dance

On Thursday evening, May 8, the School of Pharmacy revived its annual Spring Dance. The Spring Dance was sponsored by the Freshman, Sophomore, and Junior Classes. The dance was held at The Cadoa and the music was furnished by Carl Hamilton and his orchestra. The Senior Class was present as the guests of the underclassmen. The general atmosphere which prevailed was that of another "Mixer," with the innovation of the cabaret style. Delicious refreshments were served throughout the evening, adding to a most pleasurable evening.

The committees responsible for this fine dance are as follows:

A BRIEF SKETCH ON JOE FRESHMAN AND HIS FOUR YEARS AT Rx SCHOOL

By a "HOPEFUL SENIOR"

How many of you, I wonder, have ever put aside a few minutes to look back over the past four years of Pharmacy School, and marvel over the wealth of material we had to wade through, and think of all the agonizing moments—ones of fear—ones of suspense—ones of pleasure—and ones of sadness we were subjected to at one time. Let's take Joe Freshman as an example. In the beginning, we find the poor guy, after being lost for the first week or so, gradually wakes up to the fact that this is no picnic. They throw stuff at him so fast that he just walks around with a dazed look on his face. "High school was never like this—I've got a date tonight—study that chemistry tomorrow night—but tomorrow night I've got to work—oh, well, I'll get to it shortly." Oh, brother, that was his downfall—comes a chemistry quiz and Joe Freshman gets a 65—"Can't understand it," he says,—"I knew that stuff cold, but he didn't ask what I had studied." (Remember those dates, Joe, and the nights you worked?) But Joe was no dummy and pretty soon he starts passing his tests. The annual mixer comes along and he is introduced to all those strange faces he has seen in the various offices pouring over blue books, and in front of the classrooms he stole a look into when no one was looking. As there are no extra curricular activities to speak of available to him, Joe becomes interested in joining one of the fraternities offered him. He goes through the customary hazing period and after a nerve wracking initiation he is a full-pledged Frat. brother. The pressure lets off a little after he has passed his midyears and he begins to feel a little better about the whole thing. Next year should be a snap now that he has his feet back on old terra firma. Ha, that's what you think, Joe!

Comes the second year—Organic, physics—do I have to go further? "Who has some old tests?" If you aren't sweating out one it's the other or both—not to mention Pharmacognosy, Galenical Pharmacy, and you know the rest. Yes, it's a viscious cycle, Joe, but after these two years you'll be O. K.—that's what everyone keeps telling him, but he is beginning again to wonder where he's been, and what he's

doing here. "Why in the devil didn't I learn to study when I was in High School?" "This stuff is driving me nuts—yeah, that's it—Zowie!!" Gotta cram this stuff in if it kills me—gotta pass these midyears and finals. Well, Joe makes the grade and looks none the worse afterwards, except for maybe a few less hairs, and another half inch of bag under his eyes.

New year—new stuff—that's Joe as he goes to his first class in the third year. Bang! Miss Cole assigns four chapters in Economics, Dr. Hartung lectures—What is a gram molecular weight of a substance? Seems to me I heard that mentioned in the first year, thinks Joe—"Zowie! here we go again." But Joe gets his fingers into dispensing Pharmacy this year and things go along pretty good—He likes this year for a change—Yessir, he even gets a couple of B's on his mid-year report. "Things are looking up, Joe, keep up the good work," says Pop. He even has time to enjoy a few dances during the year and gets a big kick out of hazing the bewildered Freshies. "Gosh, just think, next year is my last—I hope." Midyears and finals are passed and Joe is on his way.

"A full-pledged Senior—watch my smoke—let me at it—I can't wait." Whoa, Joe—your troubles are only beginning. Remember Organic way back there in the second year? Ever hear of activated 7-dehydrocholesterol — the cyclopentanophenanthrene nucleus? No, I'm not crazy—you'll find out. Ever do any bookkeeping—you know—debit the credit and credit the debit—or something like that. Then there's a list of some 75 Bio-Assays you have to know for Dr. Chapman plus the chemistry of carbohydrates, pruteins, fats, enzymes, to mention a few, if you take Bio-Chem as an elective. Of course you can take calculus instead—Ha Ha. Don't go away, Joe—I'm not finished—but maybe I had better quit now before you get any paler.

Yes, it's a great life, Joe, if you don't weaken. My fellow Seniors will help you cry into your beer—they know how you feel. Let's hope the State board is easy—eh, gang? But who said they were tough anyway? Don't shoot please, I'm going now.

Remarks Heard In The Microscopical Pharmacognosy Laboratory

"I don't see a thing! Use your eyes instead of your nose to look into the microscope."

"Aw, you don't have anything there. You always think you have something better than anybody else."

"Last chance to see a stoma, it's floating away."

"Reagents please and be a gentleman."

"Can I have another slip cover glass, mine won't bend."

"Go away and leave me alone. I know what to look for without your valuable help. Let me find out for myself."

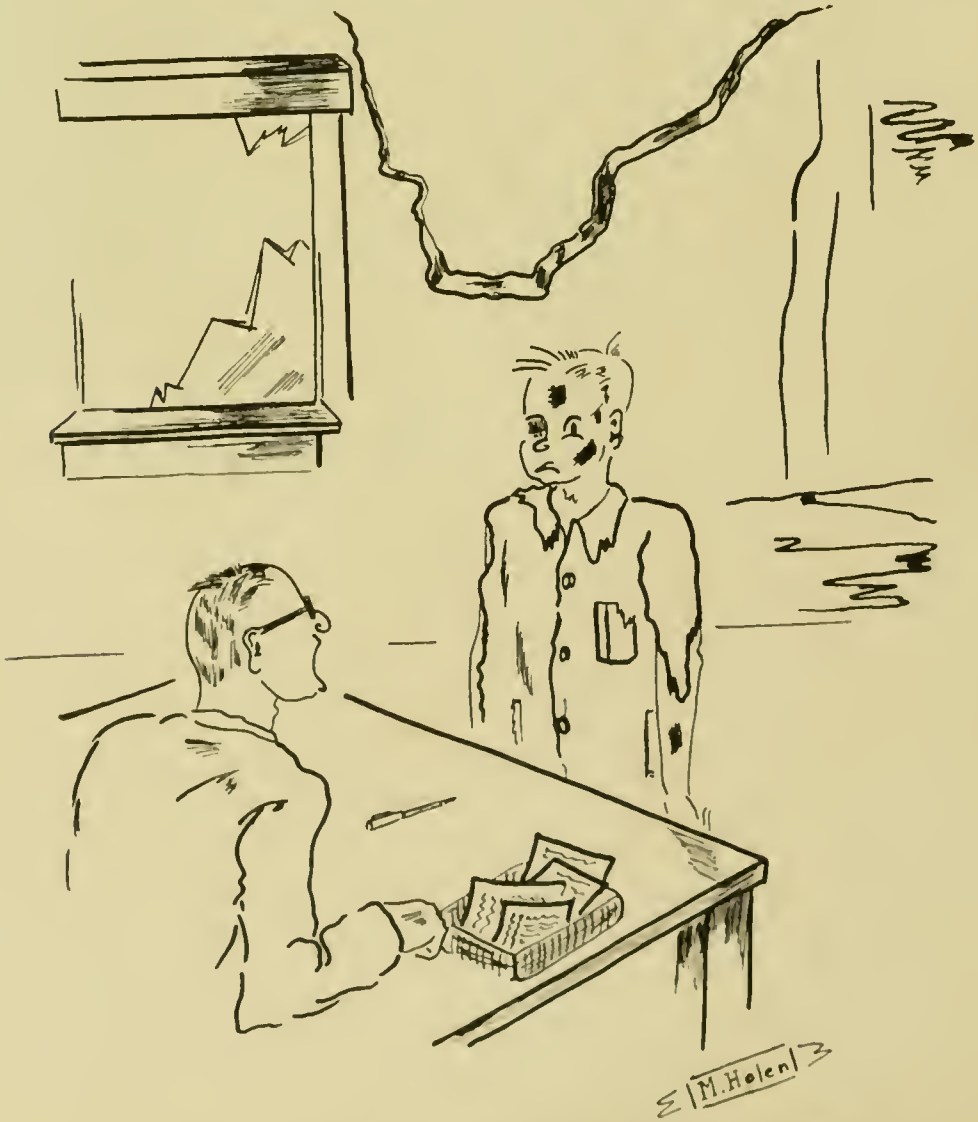
NOXZEMA SALUTES

The Pharmacy Students of the University of Maryland!

The famous Medicated Skin Cream, Noxzema, was originated by Dr. George A. Bunting—himself an alumnus—Class of '99—of the University of Maryland School of Pharmacy. From an idea it has grown to a household necessity, in use all over the world.

Today Noxzema is bringing thousands grateful relief from Sunburn, Windburn, Rough chapped hands, Minor insect bites, Minor burns, Tired burning feet and many other externally caused skin troubles!

Over twenty-five million sold yearly.



"Now do you see why nitroglycerin doesn't precipitate!"
